MMA INTERROGATORY TO USPS WITNESS
(Richard Patelunas)

MMA/USPS-T5-1

Your Exhibit USPS-T-5C shows revenues for each mail class and many subclasses for Fiscal Year 1995. On pages 1 and 16 of that exhibit, you show *total* revenues for *both* all Special Services combined *and* for each individual Special Service (Registry, etc.)

In the same exhibit, however, you do not show total revenues for both First-Class Mail and for each of its subclasses. Instead, on page 1, you show total revenues of \$31,955,100,000 for all of "First-Class Mail." On page 10 of the same exhibit, you show only the revenue *per piece* for five First-Class subclasses.

Although page 10 of Exhibit USPS-T-5C shows the volumes for total First-Class Mail and each of the five subclasses, it is not possible to derive accurate revenues for each of the subclasses because the per piece revenue figures are rounded only to the nearest tenth of a cent.

Please provide information showing the break-down of the \$31,955,100,000 total First-Class Mail revenues (shown on page 1 of the exhibit) for each of the five First-Class subclasses shown on page 10.
